Objective

Motivated and detail-oriented Software Developer with hands-on experience in full-stack development, currently working at Assure Rig Safety Tech Solutions. Seeking a challenging opportunity in the IT industry to apply technical skills and contribute to impactful software projects. Strong foundation in React, Python, AWS, Payment Gateways and modern web technologies.

Professional Experience

Full Stack Developer

Wellsee Bundle Technology Pvt Ltd, Puducherry
November 2025 – June 2026

Wellsee Food Delivery & Ecosystem

- **Engineered and deployed** a high-traffic food delivery ecosystem, managing the full lifecycle from backend architecture to global App Store and Play Store publishing.
- **Developed cross-platform mobile applications** using **Flutter**, ensuring a high-performance, native-feel experience across iOS and Android.
- **Architected robust backend services** using **PHP (Laravel)**, optimizing database queries and API response times for real-time order tracking.
- **Infrastructure & DevOps**: Managed cloud hosting environments on **Hostinger** and AWS, configuring SSL (HTTPS) and automated deployment pipelines.
- **App Lifecycle Management**: Successfully navigated the **Apple App Store** and **Google Play Console** submission processes, including version control (v1.0.2) and resolving complex build validation issues.
- **Tech Stack**: Flutter, PHP (Laravel), MySQL, Hostinger Shared Hosting, App Store Connect, Google Play Console.

Software Developer

Assure Rig Safety Tech Solutions, Cuddalore
April 2025 – November 2025

Digital Work Permit System

Developed a secure, digital permit management system for Saudi Arabia-based oil industry client. Enabled permit creation, Rolebased access, approval, tracking, PDF reporting.

Tech Stack: React, TypeScript, FastAPI, SQLite, **AWS** EC2 & S3, HTTPS, EXE builds using PyInstaller.

Stop Card Analysis Platform

Built a full-stack analytics solution for monitoring safety observations and performance trends. Included chart visualizations and cloud-based data sync.

Tech Stack: React, TypeScript, Python, SQLite, **AWS**.

Responsible for full project lifecycle: requirement gathering, UI/UX, backend API, database design, deployment, and client demo.

LateX & Web Developer

Integra Software Services, Puducherry
June 2024 – April 2025

Enterprise Data & Analytics Dashboards

- Engineered dynamic web-based analytics platforms and dashboards to transform complex business data into interactive, real-time visual insights for stakeholders.
- Integrated responsive chart visualizations, automated reporting tools, and optimized cloud-based data synchronization pipelines to improve operational efficiency.
- **Tech Stack:** React, JavaScript, Python, Cloud Databases, AWS, Data Visualization Libraries.

Technical Skills

- Web Development: Frontend & Backend Development , Payment Gateway.
- Software & Tools: Microsoft Visual Studio, Linux, Database Management.
